**5. COMMUNICATIONS**

5.1. Community Comments

Mary Botsford, who attended a meeting in the spring returned to touch base with us regarding Highland

Lakes Campus. She noted many groups are involved to save part of the campus for various community possibilities and organizations are interested in helping to preserve the land. She hopes we can work together to make it happen.

Gina Mandas, member of Spanish and Humanities faculty, wanted to address the Board about sunseting programs. She expressed her concerns about the reorganization of the arts programs.

Jack Cronin, Cinematic Arts faculty at Orchard Ridge. Jack echoes Gina's sentiments, and read a letter from theater faculty, Jennifer Little. The letter addressed her concerns regarding the arts programs reorganization.

## 5.2. Student Engagement Report

Heidi Renton, Student Engagement Coordinator at the Auburn Hills and Highland Lakes Campuses, provided a brush up on Student Engagement, by introducing the members of the team, Stacey Crews, Kim Combs, Brenda Lowery and herself. H. Renton introduced Tiger Hutchons, President of Student Government. T. Hutchons greeted the Board and introduced Student Government Secretary, Aisha Sabahat. T. Hutchons reported they just developed a new mission statement that will be out soon. In addition, he provided a brief update on the following items:

- Upcoming volunteering events
- Fellowship events
- Ambitious Projects
  - Student Government Congress between the Michigan Community Colleges
  - Hosting a spring dance
- Web Series: Club of the week highlighted, and is broadcasted on Wednesdays (presentation on file)

## 5.3. Academic Report

### 5.3.1. Academic Senate Update

Academic Senate Chair John Mitchell provided the Senate update report. Some of the items discussed included:

- An Ad Hoc HL Closure Committee is exploring the academic implications of the closure and the accompanying movement of faculty, programs and courses to other college venues. This committee is chaired by Valerie Emanoil, also a HL faculty member.
- Academic Intervention Committee's charge is to review the College's current policies and strategies for academic intervention. The committee is currently beginning the implementation of an improved early alert system, more to report in the future.
- Senate also formed a committee called Registration Practices. They are charged with reviewing all current registration and intake policies and procedures, to identify convoluted methods or places where barriers are erected to students. A report will be presented to Senate when completed.
- An Ad Hoc Course Completion Committee, which will conduct research on current practices nationwide and develop recommendations about strategies that will work best for the unique context of OCC.
- The latest committee formed is set to work on the Billable Contact Hours issue that has been an issue for lab science classes. We hope they will lead to make this process fair and equitable for both students and faculty. Looking to get consistency in those areas, and see what other colleges are doing as well.
- Regular Senate business is just getting underway for this Academic Year, with many motions and discussions already moving forward in September.
- Senate will continue to prioritize student success and completion at the course level and the program/certificate/degree levels as well.

Trustee Callaghan inquired about AI, J. Mitchell replied that they are having issues and working with some software to check for use of AI along with plagiarism. He feels the College will have a specific policy about AI at some point.

Trustee Callaghan asked for clarification about the Academic Intervention piece, and if there was a clearer way to communicate to the student support services. Dr. Hurns noted a new system will give the ability to faculty alerts and/or kudos about students, which then would accelerate the assistance. The faculty will need to submit the referral, it will go to Counseling or Academic Support Center and let the faculty know what the follow-up was.

### 5.3.2. Provost Update

Dr. Jennifer Berne provided the Provost update. Dr. Berne called notice to the expertise and functionality of the Academic Senate at OCC. Kudos to J. Mitchell's leadership. Below are the topics she touched on:

- Early Momentum Metrics – the two we are most interested in at OCC in correlation with Student Success. Taking college math and English in your first year; taking more credits each semester. The research shows the faster you get through, the more likely you are to get through. She wants to make sure we pay as much attention to that as well.
- We have 50 faculty engaged in projects, research, mini, gateway projects. Studies about how students can be supported to complete. The faculty get together once a month to discuss how the work towards student success. The D3C3 is a huge helper to this.
- Changes in course definitions again, to make it more simplistic for students: Online (asynchronous), Online Live (via zoom), Online T (online, in-person testing), INP (in-person), Hyflex (either online or F2F – Shawn Dry is doing this) this is a great improvement. It was generously funded by COVID funding and self-sufficient now.

Gerry Kelley said a few words about coming to OCC in 1965, and showed some news articles about OCC during that time period. He mentioned he went to school at OCC, then Oakland University, and in 1970 joined OCC as an employee. He worked as a switchboard operator, mail typist, and retired as a paraprofessional. He appreciated and loved all the people he worked with at the College.

Rick Driscoll noted he took his first class in 1978. He came up through the ranks as a paraprofessional, taught as adjuncts, then full-time faculty. He has seen so much change on the Auburn Hills Campus, which was his home during his tenure. In addition, he met his wife at OCC, and his children attended here. He spoke of two of his mentors Bill Mohoney, and Sharon Blackman, both whom helped his professional journey at OCC. He thanked everyone, stating it was a fabulous life at OCC.

Board Agenda Item 6.1  
November 21, 2023

**FINANCE QUARTERLY REPORT**  
**For the Quarter Ending September 30, 2023**

## INTRODUCTION

Oakland Community College is a public, non-profit educational institution operating five academic campuses. The academic services of the College are provided during semesters and the majority of the expenditures follow the semesters– not calendar months. In the General Fund, the College has three major revenue sources following different receipt schedules. Tuition revenues are received on a semester schedule. State appropriations are received on a monthly schedule, October through August. Property taxes are received primarily from August through October.

The Operating Funds of the College are included in the quarterly report – General Fund and Designated Funds.

## COMMENTS

### For the Quarter Ended September 30, 2023

This report includes year-to-date information as of the 1st quarter of the fiscal year and reflects financial activity from July 1, 2023 to September 30, 2023.

### FINANCIAL HIGHLIGHTS

#### Revenues:

In the General Fund, the College recorded total revenues of \$82,036,714 (column 3) compared to \$72,966,669 (column 4) as of the end of the same quarter last year. In Designated Funds, the College recorded total revenues of \$1,023,802 (column 3) compared to \$1,075,973 (column 4) at the end of the same quarter last year.

Property Taxes: The total amount is \$59,761,453 (column 3) compared to \$52,607,929 (column 4) at the end of the same quarter last year in the General Fund. Property taxes are primarily received from August through October. Property tax revenues are higher than fiscal year 2023 as taxable values have increased. For fiscal year 2024 and beyond, the College will continue to closely monitor the impact of rising interest rates and inflation on property tax values.

Tuition and Fees: The total amount is \$19,368,971 (column 3) compared to \$18,389,305 (column 4) in the General Fund as of the end of the same quarter last year. Enrollment for fall 2023 was slightly increased over fiscal year 2023 for both headcount and contact hours. In the Designated Funds, tuition and fees have been impacted by COVID-19 for over three years but have been increasing slightly each fiscal year with more offerings each term. Tuition and fees for economic and workforce development programs in the Designated Funds are \$962,533 (column 3) at the end of the quarter compared to \$1,030,482 (column 4) at the end of the same quarter last fiscal year.

Investment income: The total amount of investment income for 2023 as of the first quarter is \$2,577,852 (column 3) compared to \$1,578,981 (column 4) for same quarter last fiscal year. This is due to rising interest rates.

## **Expenditures:**

The College recorded total expenditures in the General Fund of \$27,663,681 (column 3) compared to \$26,479,817 (column 4) as of the end of the same quarter last year. In the Designated Funds, the College recorded total expenditures of \$1,211,804 (column 3) compared to \$991,206 (column 4) as of the end of the same quarter last year.

Employee Salaries and Wages: The amount is \$12,425,715 (column 3) compared to \$12,731,911 (column 4) as of the end of the same quarter last year in the General Fund. In the designated fund, the amount is \$604,505 (column 3) compared to \$503,647 as of the end of the same quarter.

Benefits: The amount is \$6,112,947 (column 3) compared to \$6,410,170 (column 4) as of the end of the same quarter last year in the General Fund.

Other Operating Expenses: In the General Fund, other operating expenses of \$8,118,645 (column 3) are higher than as of the same quarter last year with \$6,125,305 (column 4) total. Fiscal year 2023 total expenses were budgeted and expected to be higher than 2023 at year-end due to the rate of inflation in fiscal year 2024. For the 1st quarter of 2024, the overall increase as compared to 2023 is primarily due to new and ongoing technology projects, some of which will be capitalized at year end as required by GASB 96, Subscription based IT arrangements.

## **SUMMARY:**

OCC, along with educational institutions across the nation, is faced with many challenges. These include maintaining and increasing student enrollment, managing shifts to different modalities for student learning, supply chain issues and inflation with rising costs of all goods, services and utilities. The College faces these challenges with the assistance of the entire college community.

Overall revenue for fiscal year 2024 is trending higher than 2023 as of the first quarter and while expenses have also increased in 2024 over 2023, the College will continue to strive to effectively manage the fiscal year budget and monitor spending. The College will closely oversee the impact of the economy, changing interest rates and enrollment challenges throughout the current fiscal year and beyond.

## IT Capital Project Descriptions

### **Emma Integration**

Emma is a cloud-based email management platform used to by OCC to communicate with large numbers of students or employees at once. This project creates an automated linkage (integration) between our Colleague Student Information System and Emma to provide up to date lists of current student populations that we need to communicate with.

### **Add OCC Chatbot to IT Portal**

This is a project to integrate existing Chatbot functionality to the IT Support Center Portal. The Chatbot is Artificial Intelligence (AI) software currently used to improve/streamline our students' interactions. Adding it to our ITSC will expand support availability to 24x7x365; and to help off-load traffic during business hours allowing our front-line staff to handle more complex technical questions and issues.

### **Campus Logic Award Letter**

Campus Logic is a cloud-based platform that OCC uses to help students navigate Financial Aid by streamlining the workflow, digitizing paperwork, and managing communication. The Award Letter is a project that automates the timely creation and delivery of a document explaining exactly what FA funds a student has been awarded so they may understand the financial resources available to them to attend OCC.

### **Colleague migration to SaaS (Software as a Service)**

This is a D3C3-funded project with 2 major components: 1) to streamline Colleague processes and allow better integration across programs by de-customizing screens and increasing the consistency and effectiveness of how the system is used. The second component is to move the hosting of Colleague from on-premise to the cloud. By doing so, OCC can further increase the long-term maintenance, security, and sustainability of our Student Information System, freeing up time for proactive technology-based projects in service of our goal to double graduation rates and increase equitable access to education.

### **CRM Advise**

CRM Advise offers tools to track student success—increasing retention rates and paving clear paths to graduation. CRM Advise gives you clear, role-based views of the student performance data, helping advisors, faculty, and other student services staff to assist at-risk students more effectively and efficiently using a variety of media, including email, texting, and chat.

### **Destiny One**

Destiny One is a comprehensive web-based Marketing, Communication, Registration, and Management system for OCC's Economic and Workforce Development department offering non-credit courses and programs and corporate training.

### **eForms and Workflows**

This project refers to the expansion of our document imaging solution in an attempt to eliminate all paper documents and move to a 'paper-free' workplace. This project provides a 'greener', more efficient, more effective college and allows for anytime anywhere access to forms for students and employees.

### **Ellucian Experience**

This new user interface offers each student a personalized dashboard to check classes, grades and schedules, and stay up to date on financial aid, for example. Integrating with both Ellucian and non-Ellucian solutions, Ellucian Experience provides instant access to content and real-time data using individual configurable "cards".

### **eLumen**

This is an academic tool to replace our aging ARTIS system. eLumen manages assessment of student learning outcomes allowing the college to analyze section, course, and program-level activity guiding institutional improvement by connecting program pathways to individual student learning.

### **FA~Link**

This is a software product from Trimdata which provides real-time, two-way interface allowing students to use Financial Aid and Sponsorship funds, managed through Colleague, to seamlessly pay for books while at the bookstore cash register.

### **Infosilem**

Infosilem is a sophisticated software tool used to automate the management of OCC campus building/room facilities as well as creating optimized academic schedules balancing locations, classrooms, instructors, and course offerings. The tool helps to streamline students' academic pathways to completion as well as improving facility utilization.

### **MFA (Multi-Factor Authentication) for students**

MFA is a security technology that enforces the use of more than one credential when logging into college systems, networks, and computers. MFA creates a stronger, layered defense that makes it more difficult for bad actors to break into college electronic assets. Faculty and staff currently use MFA, this project extends MFA to our entire student population. MFA is also now required to acquire cyber insurance.

### **MyOCC Electronic Faculty Contracts**

This software manages the very complex Faculty contract compensation process. It replaces a program that is no longer available to the college because Web Advisor was discontinued by Ellucian.

### **NEOED- Phase II**

This software is designed to automate and streamline our HR recruiting and onboarding process. It replaces a system (HireTouch) that was discontinued by the manufacturer.

### **Penji**

Penji is a cloud-based platform for scheduling, communicating, and tracking appointments and interactions with our Academic Success Centers. This project includes the linkage (integration) between the Colleague Student Information System and Penji to manage access to the ASCs for our students.

### **Public Safety Paperless Key application**

This software automates the Public Safety process to manage and track the hundreds of physical door keys and electronic access badges throughout the college.

**Simple Syllabus**

This is a cloud-based, centralized platform for managing and on-line publishing our academic syllabi. The solution simplifies syllabus management, and improves syllabus consistency and accessibility for our students.

**VDI (Virtual Desktop Infrastructure)**

VDI is a virtualization technology that hosts a desktop (PC) operating system and/or software on a centralized server in a data center. VDI provides easier access to academic software for students by publishing the software to the device where they log in while allowing better asset utilization for the college by reducing the need for discipline-specific classrooms and labs.

OCC FOUNDATION QUARTERLY REPORT  
July 1, 2023 to September 30, 2023

The mission of the OCC Foundation is to obtain and allocate financial support to advance the mission and goals of Oakland Community College. The Foundation sets and tracks its goals on a *fiscal-year basis*. Please note that previous reports have reported based on a *calendar-year basis*, which may account for previous reports looking differently.

### Organizational Highlights

- FY23 Foundation Audit: Plante Moran audited the OCC Foundation’s FY2023 (July 1, 2022 – June 30, 2023) in September 2023. In their opinion, the financial statements presented fairly, in all material respects. Many thanks to the staff at Plante Moran for performing their audit on behalf of the OCC Foundation.
- The Foundation provided Financial aid with a total of \$544,000 in scholarships to award in the 2023-24 academic year – including \$239,000 of annual scholarships, \$185,000 of endowed scholarships, and \$120,000 of miscellaneous (department-awarded) scholarships.
- Foundation Board of Directors (BoD) Retreat: In August 2023, the Foundation BoD attended a retreat at the Orchard Lake Country Club (OLCC). OCC’s Chef Doug Gahns, who is currently the Executive Chef at the OLCC, and his team (many of which are OCC Alumni from the Culinary Studies program), prepared a delicious meal for the BoD and their guests. Many thanks to the staff at the OLCC, and especially Chef Doug, for a beautiful evening of networking and celebration.
- Foundation Coordinator position: The Foundation Coordinator position plays a very significant role in the OCC Foundation, serving as a liaison to both Financial Aid as well as Financial Services. This position has been vacant for many months. The OCC Foundation posted the position in FY24 Q1. More information to follow in the future once the job has been filled.

### STRATEGIC PLAN UPDATE

The Office of the Chief Strategy Officer is now officially in process on the deployment of the FY24-26 Strategic Plan. OCC is now fully into deployment on the first set of grant-funded strategies and continues to see success. Some notable successes included in the monitoring report are in corequisite courses and the retention of those students, demodification of SIS systems, the movement of the SIS to the SASS cloud-based hosting, and the identification of gate-keeper courses. Many stakeholders from across the college continue to work diligently on the College's strategic endeavors.

The goal of doubling graduation continues to be supported by three main bodies of work. These include, increasing student success through the National Institute of Student Success (NISS) model for advising and self-service, workforce partnership with MichAuto, and expanding dual and concurrent K-14 partnerships. This regional partnership of industry, philanthropy, non-profits, and the education sector continues to innovate and redefine educational systems in metro Detroit.

OCC submitted its first report to the Wilson Foundation at the close of November and was in good standing and will its report to the Balmer Group before the holiday break in December. OCC in now begin the prework of the grant application process for the 2026 funding cycle. In the initial plans are goals to improve wrap around and community service with an emphasis on addressing mental health. There remains continued optimism that the alignment between the Board Ends, college strategy, private funding, and innovations in strategy will keep Oakland Community College moving forward for the next three years and beyond.

## **ACTION**

**Board Agenda Item 7.1  
November 21, 2023**

### **Board of Trustees' Authorization for Chancellor to Accept and Sign Purchase Agreement for OCC District Office (2480 Opdyke Road, Bloomfield Hills, 48304)**

#### **PROBLEM/NEEDS STATEMENT**

The College has been actively reviewing, restructuring, and reducing the current footprint we encompass. District Office employees have been relocated to various campuses, allowing this location to be eliminated from our footprint. An interested buyer has submitted a purchase agreement for the location.

#### **WHY THE ACTION IS BEING RECOMMENDED**

Oakland Community College is conscience of reducing the footprint and has determined to sell the District Office location in support of this reduction.

#### **MOTION**

Move that the Board of Trustees authorize the Chancellor to accept and sign Purchase Agreement for the OCC District Office (2480 Opdyke Road, Bloomfield Hills, MI 48304).
