HTI Healing Touch Certificate Program™

The HTI Healing Touch Certificate Program™ is a multi-level course of study in energy-based therapy that moves from beginning to advanced practitioner and is complementary to health care. The program incorporates a variety of energy-based modalities that are sequenced in Levels 1 through 5, allowing participants to progress from beginner to practitioner. Students receive a certificate of completion at each level. Upon completion of levels 1-5 and additional requirements, students are eligible to apply for certification through Healing Touch International, Inc. Instructor Training prepares the individual to become an instructor.

Each level in The HTI Healing Touch Certificate Program™ includes both didactic and experiential learning in which participants practice and share experiences using energy-based healing techniques. In addition the program encourages the developing practitioner to enhance skills and knowledge through recommended readings and practice sessions. There is also a strong commitment to personal growth and knowledge of holistic health principles.

Target Audience

The HTI Healing Touch Certificate Program™ is a nursing continuing education program for registered nurses, health care professionals, body-oriented therapists, psychotherapists or other licensed health care professionals and individuals who desire an in-depth understanding of healing work that uses energy-based concepts.

Certification as a Healing Touch Practitioner is an appropriate goal for those who wish to establish a Healing Touch practice or incorporate Healing Touch as a major focus within an existing professional practice.

Level 2 Description

Level 2 is for students who have completed Level 1 and wish to increase breadth and depth in the study of Healing Touch. The second level of study in Healing Touch includes an intake interview, back techniques and a one-hour healing sequence. Emphasis in the experiential learning is on developing healing sequences for specific client needs.

Level 2 Objectives

The participant will:

1. Share the experience of practicing Level 1 techniques.
2. Develop interviewing and additional assessment skills.
3. Demonstrate a one-hour healing sequence for specific client problems.
4. Document clinical work.
5. Practice back and neck techniques.
6. Describe specific techniques in addressing client health challenges.
7. Describe application of HTI's Standards of Practice and Code of Ethics within a Healing Touch session.
