Best Practices by Category	Examples of Adherence
Category A: Economic Development and Business or Industry Partnerships (must meet 4 of 5)	
(i) The community college has active partnerships with local employers including hospitals and health care providers.	Oakland Community College (OCC) continues to strengthen its partnerships with local health systems and hospitals to support and expand its health-related academic programs. These partnerships include collaborations with medical care providers across SE Michigan. The College partners with local health systems and hospitals, including Trinity Health, Ascension Providence, Corewell Health, Henry Ford Health Systems, the Detroit Medical Center, McLaren Health and Hurley Hospital for such programs as Certified Nursing Aide, Patient Care Technician and Sterile Processing. OCC partners with Henry Ford Health to provide “Grow Your Career” events two times per year; which aims to showcase the Nursing and Health Programs to internal Henry Ford employees. This program offers Henry Ford Health employees the opportunity to use tuition reimbursement dollars in combination with State of Michigan funding opportunities to return to college to advance their careers. In 2025, the event expanded to feature not only Nursing and Health Programs, but other careers employed by Henry Ford Health, such as Public Safety Officers, Computer Technicians, and Electrical Technologies. OCC was a partner in the Strengthening Community College Grant with Grand Rapids, Lansing, Muskegon and Alpena Community Colleges. Through this grant the college is developing and delivering training programs in Sterile Processing, Certified Nurse Assistant (CNA), Patient Care Technician and Mammography Technician. These partners provide clinical sites and placement opportunities for participants. OCC has entered into a unique partnership with a local employer, the Zekelman Holocaust Museum, allowing Nursing students to engage in clinical rotations at the museum. We are also working with the Museum’s Director to produce educational video content by the Museum’s Director that will be integrated into our Medical Law and Ethics course. This partnership offers a distinctive and meaningful learning experience for our students.
(ii) The community college provides customized on-site training for area companies, employees, or both.	The College has 15 current Michigan New Jobs Training (MNJT) Program contracts with area companies totaling nearly \$4.5 million. Additional partnerships with employers centered on training in advanced manufacturing and skilled trades include General Motors, American Axle, Magna International, Stellantis, HURCO, Triple Inc. and FANUC among others.
(iii) The community college supports entrepreneurship through a small business assistance center or other training or consulting activities targeted toward small businesses.	OCC is a partner in the Goldman Sachs 10,000 Small Business (10KSB) Program. This program is designed to support eligible small business owners as they help drive economic growth in their local communities. OCC provides faculty members that coordinate, consult and facilitate the program. Other staff members participate in candidate selection, module training as well as connect small businesses with a variety of resources offered around the state. The program currently has graduated 36 cohorts and are approaching 1000 scholars/small businesses who have completed the program.
