

OAKLAND COMMUNITY COLLEGE
presents the

Sterile Processing Technician Program

The Sterile Processing Technician program is designed to give entry-level and incumbent healthcare workers the experience, knowledge, and skills necessary to become certified as a Central Service Process Technician, also known as a Sterile Process Technician. CSPT's are responsible for decontaminating, inspecting, assembling, packaging and sterilizing reusable surgical instruments or devices in a healthcare facility. Following completion of this program, individuals will have the classroom knowledge required to sit for the Certification Board of Sterile Processing & Distribution Exam. In addition to the thirty-eight classroom hours, the CBSPD certification preparatory course will include forty onsite clinical hours in a central service processing department.

START DATE: January 19, 2021

END DATE: April 8, 2021

DAYS: Tuesdays and Thursdays

TIME: 6:00 PM to 8:00 PM

LOCATION: OCC Southfield Campus, Surgical Lab
22322 Rutland Drive, Southfield

FEE: \$2000 per student

***Five-8 hour clinical shifts at hospital facility

This program is eligible for Michigan Works! funding. For more information on how to take advantage of this high demand career opportunity, please contact David Bradley (248.829.0777 or dwbradle@oaklandcc.edu) at Oakland Community College. Space for this program is limited.
