Grades below "C" are not accepted. The respiratory therapy program admits 30 students each fall semester. Students will be rank ordered by the tabulated score. In the case of a tie the earliest completion date will be used to break the tie. In case of another tie, the total number of courses completed at OCC will be used to break the tie. Students who continue to be interested in the RSP program must reapply each year. Admittance is conditional upon a satisfactory criminal background check.
