

OAKLAND COMMUNITY COLLEGE

Automobile Servicing (AUS.AAS) Program Outcomes 2021-2022

Program outcomes represent broad areas of knowledge and skills developed over the duration of the **program** through a wide range of courses and experiences. These learning outcomes represent what a student should be able to know, think, or do upon successful completion of their program at Oakland Community College.

- **Student use safe practices related to the performance of diagnostic and repair procedures, with emphasis on environmentally sound methods.**
- **Students can analyze, interpret, synthesize, and evaluate information before accepting or formulating an opinion or conclusion. Students can apply the information to engage in innovative problem solving strategies.**
- **Students will be proficient with all tools and diagnostic equipment required for the licensed area, and use manufacturers' recommended procedures.**
- **Student will be able to locate both specifications and lifetime service modifications.**
- **Student will be able to select and utilize replacement parts and components that have the highest level of reliability and durability, at a reasonable cost.**
- **Student will provide proof of competence to pass the Michigan licensing and national Automotive Service Excellence (ASE) certifications.**
- **Student will use safe practices related to performing diagnostic and repair procedures, with emphasis on environmentally sound methods.**
- **Students will be able to test, diagnose, adjust or replace motor vehicle components and locate both specifications and lifetime service modifications.**
- **Students will obtain competencies to pass the Michigan licensing and national Automotive Service Excellence (ASE) certifications and maintain institutional NATEF certification.**
- **Students will prove their ability to select and utilize replacement parts and components that have the highest level of reliability and durability, at a reasonable cost.**
